Dear FabFitFun,

After learning about your search for a new Front End Developer position, I immediately decided to submit my candidacy. I love seeking out new beauty and style products and I have always been interested in FabFitFun's mission. That's why I have no doubts about joining a team that works on something I am so passionate about.

As a developer, I value collaboration between all members in any field and I believe the only way to learn and be successful is to surround yourself with people equally as passionate and dedicated. This is what I hope to bring to FabFitFun and what I hope to gain. I am an extremely dedicated and hands-on designer. I am always seeking new opportunities to grow my skills. I enjoy working in an environment where I can learn from my peers while also sharing my knowledge. I have the passion to make a meaningful impact with my work and I have the work ethic to get things done.

My skills include Adobe Creative Suite, HTML, CSS, SASS, Bootstrap, JavaScript, jQuery, Grunt, Git, and responsive web design. I have the ability to learn and adapt to new technologies. I hope to be an asset to FabFitFun's growing development team.

Thank you very much for your time and consideration.

Sincerely,

Nicole Tavares Carvalho
